WEARY CONGRESS NEARS END

Levittown Festivities Open Tonight

Now it can be told! The Levittown-A-Rae, that big three-day festival that opens on the Shopping Center Mall at 7 o'clock tonight is so named as an abbreviation of its theme: Levittown on Array.

Festival Timetable

TONIGHT  
Evening, Mall, Exhibits and Demonstrations  
Evening, Mall, General Information Center  
TOMORROW  
Morning, Lakeside Lake, Flower Show and Fishing Contest  
10-12 a.m., pool areas, Family Field Day  
2-4 p.m., Mall, Pet Parade  
2-4 p.m., Pools, Pool Show  
5-6 p.m., Mall, Demonstrations, weightlifters  
8-10 p.m., Band Shell, Finals  
Miss Levittown Contest  
10-12 p.m., End of Mall, Community Dance and Jitterbug Contest  
SUNDAY  
10 a.m.-5 p.m., Country Club  
Park Pool, Junior Olympics  
8:30-10 p.m., Band Shell, Concert by Lower Bucks County Band.

Good Evening!

S.O. battling for GO

Filibuster ends. Civil Rights passes.

Thurmond's long talk climaxed a long session even if it didn't have much effect. His 24-hour and 19-minute speech set a new record for the Senate.

Many a man will tell you though that his wife can do better.

The Senator proved something of a comedian also. After talking against the bill all day he drily announced, "I'm going to vote against the Civil Rights bill."

Long holiday ahead.

Don't be a statistic. Be alive Tuesday to read about how the holiday went.

Philadelphia is swinging into its no-fix traffic ticket court. Give it a while and then let's see whether the courts or hum-an nature win out.

But they keep taking the fun out of the motorists' life. Add up all the taxes, repairs, initial costs and everything else on autos and you see why some people yell, "Get a horse."

Yankees win the big ones. Just when it looked as if the White Sox had the chance to catch the perennial pennant winners, the Yanks sweep the series.

You can tell a movie is pretty old if the bandits drive up to the bank and find a parking place.

The girl who has more dates than any other may just be a few chumps ahead.

Always remember that a hay fever sneeze is an ill wind that blows nobody good.

Be careful.

New in name but a four-year-old institution the big event pronounced "Levittown array" is designed to acquaint newcomers and remind oldtimers with the many activities in the bustling new community.

Many of the organizations will maintain exhibit and demonstration booths around the band shell at the Levitt administration building. The band shell will be the focal point of the Levittown-A-Rae festivities.

Stay-at-homers who attend the Levittown-A-Rae this Labor Day weekend will find it highly interesting.

They will see Miss Levittown selected from 16 beautiful finalists from 8 to 10 p.m. tomorrow in the band shell, enjoy a pet parade on the Mall tomorrow afternoon, dance on the street tomorrow night and see exciting water ballets and diving demonstrations.

Organizations that have already (Continued on Page 3, Col. 2)

Eckel Named To Steel Job

John A. Eckel, an executive of the Fairless Works of United Steel Corporation, has been appointed to the position of assistant to the general manager of steel operations, with headquarters in the Corporation's Pittsburgh offices. E. H. Gott, vice president, announced today.

Well known for his activities in civic organizations in the Lower Bucks County and Greater Trenton areas, Mr. Eckel came to the Fairless Works from Gary, Ind., in 1954 as assistant to the general superintendent — the position he held until his present appointment. A native Pennsylvanian, he was born and raised in Ingram.

Mr. Eckel was graduated from Carnegie Tech in 1935 with a B.S. degree in metallurgical engineering. Recently he completed the School for Executive Management at Columbia University. He commenced employment (Continued on Page 3, Col. 7)

'Ghost Riders in the Sky'

Joyce Briding, 46 Rose Arbor Lane, Red Cedar Hill, Levittown, checks the sky after a strange object, at her feet, fell in her driveway last night. The carton contained shredded material similar to tin foil. A neighbor suggested the article might have something to do with radar. (Courier-Times Photo).

Fair Weather Due In Holiday Period

The weatherman will come through with mid-summer temperatures for the last holiday weekend of the season starting tonight.

Clear skies and mild temperatures will greet drivers pushing in all directions for a long Labor Day holiday.

Drivers are urged by Lower Bucks police officials to drive with care over the holiday as highways are expected to be clogged with the flow of weekend traffic.

Tomorrow's outlook is for a clear day with temperatures well into the 80's. Old-fashioned humidity will move in right (Continued on Page 3, Col. 8)

A Million A Week

If anyone—anywhere—knew how to write an ad that all of you readers would declare "perfect"—he could earn a million a week.

There just ain't no such expert!

You see, people are "different." You all think "differently." No one—but you—knows what you think.

That's why we ask you to tell us what you think in this Good Will Community Survey, so we can write our ads as the most of you prefer.

Your comments regarding the questions about shopping conditions will help us to serve you better.

FBI Files, Foreign Aid Bills Passed

WASHINGTON (UP)—Congress rushed towards adjournment today.

Speaker Sam Rayburn was shooting for a windup in the House by early afternoon. Indications were the Senate might take longer although it had no major business to do.

The House cleared one hurdle early by approving, 315 to 0, a bill to safeguard the secrecy of FBI files in criminal trials. Adopted by the Senate last night, the measure was sent over to the White House for President Eisenhower's signature.

The House then approved and sent to Eisenhower a compromise \$3,435,810,000 foreign aid appropriation bill that fell more than one billion short of Eisenhower's request.

The 146 to 122 roll call vote came after House opponents protested that the bill was a "giveaway" and Eisenhower supporters countered that the deep slash was a "gamble" with the nation's security.

Senate Hears Speeches  
Speeches were the order of the day in the Senate as members prepared to go home until next Jan. 7.

The Senate cleaned up most of its last-minute business Thursday night and early this morning at the tail-end of a marathon session marked by Sen. Strom Thurmond's record 24-hour-plus filibuster against the civil rights bill.

Sen. Richard B. Russell (D-Ga.), leader of the Senate's Dixie bloc, delivered a long post-mortem in which he criticized both Thurmond and administration sponsors of the bill.

Vice President Richard M. Nixon and Atty. Gen. Herbert Brownell Jr. were singled out for special censure by Russell.

Warns of Difficulty  
Charging that the bill was politically inspired and aimed directly at the South, he said "a political-minded" attorney general now will be under constant pressure from Nixon to help the National Association for the Advancement of Colored People achieve their racial equality aims in the South.

The South, he said, must prepare for "difficult times."

In a slap at Thurmond, Russell (Continued on Page 3, Col. 8)

Champion Of Flag Is Held For 'Abuse'

Masis Palouian, who has been flying the flag in various places from Bensalem to Washington, D. C., in protest against the township's proposed moving ordinance, was arrested last night and charged with desecration of the flag.

Bensalem Police Chief William Riempp said Palouian had the flag uncovered and in an

open truck last night in front of Bensalem High School.

Empty cans and assorted mechanical equipment were on the flag, the chief said.

Palouian was taken before Justice of the Peace Albert Schultz and released in \$500 bail for a hearing at a later date on the charge.

Yesterday the Bensalem

Township Democratic Organization issued a statement opposing the passage of the ordinance which provides for registration before moving in or out of the township.

Palouian, who lives at 4344 Old Lincoln Highway, has opposed the ordinance as a "Communist type ordinance."

Steelworker Denies Paying \$10 For Ballot Stuffing

WASHINGTON (UP)—A Pittsburgh steelworker denied that he paid \$10 to a co-worker to stuff ballot boxes in a union election last February.

The denial was made to newsmen by Harry T. Lewellen as he prepared to tell his story to the Senate Rackets Committee. He brought five members of the union's election board with him to support his denial before the committee. The five said they would back his story.

The five were Stanley Skalniak, president of Local 1843; Andrew

Thoth, recording secretary of the local; Thomas Fulton, financial secretary, and Joseph Elzer and Benedict Cello, tellers at the election.

While Lewellen waited to testify, the committee questioned his accuser—George E. Crosby—in a closed-door session. Crosby, former employee at the Jones & Laughlin plant in Pittsburgh where Lewellen works, refused comment as he entered the hearing room.

Lewellen has filed criminal libel charges against Crosby for making the accusations.

Crosby charged in an affidavit to the committee that Lewellen paid him \$10 for stuffing 35 ballots marked for United Steel Workers' President David J. McDonald at the election in their local 1843 last Feb. 12.

McDonald, who was supported by Lewellen, lost the Local 1843 election by more than a three-to-one margin to Donald C. Rarick, but defeated Rarick in the overall union contest.

Lewellen, a union committeeman (Continued on Page 3, Col. 7)

Auto Firms, UAW Renew Car Sales Price-Cut War

DETROIT (UP)—The price-cut battle between the United Auto Workers and the "big three" of the auto industry flared anew today, fanned by a UAW plea for help from President Eisenhower.

UAW President Walter Reuther wrote the President asking for a "meeting" in the very near future

in view of rejection by the three auto firms of Reuther's suggestion that car prices for 1958 be cut \$100.

The UAW president's statement yesterday brought almost immediate response from presidents of Ford, General Motors and Chrysler who said Reuther was only

presenting his subject in a different way.

Curtice Comments

GM President Harlow Curtice said Reuther's "14-page publicity release re-argues his letter to General Motors to which we replied in detail . . ."

Henry Ford II accused Reuther of converting "a grave national problem (inflation) into a propaganda exercise" (Continued on Page 3, Col. 4)

Five Pairs For a Full House

Miss Margaret Snyder, attendant in the maternity section of the Lower Bucks County Hospital, shows five fingers, one for each set of twins born there recently. The twins are Alden Craig and Mark Alan, children of Mr. and Mrs. Jack Huff, 503 Parkway Drive, Fairless Hills; Nicholas Maura and James Neal Oberto, sons of Mr. and Mrs. Roy Oberto, 24 Cleft Rock Road, Cobalt Ridge, Levittown; Debra

Fern and Diana Gail, daughters of Mr. and Mrs. Joseph Coleman, 109 Eventide Lane, Elderberry Pond, Levittown; Edith Ann and Edward Matthew, children of Mr. and Mrs. Bernard Gwaltney, 17 Gingerbush Road, Goldenridge, Levittown; Philip Martin and Phyllis Katherine, children of Mr. and Mrs. James Kelly, 3510 Dixon Ave., West Bristol. After a talk before the Bristol Rotary Club on importance of water supply, Dr. Maurice K. Goddard (center), state secretary of forests and waters, went from the Elks Home with these officials to check the Delaware River. The oil scum they found emphasized the water problem. Officials are (from

left) James Keegan, Rotary Club president; Milton M. Strouse, executive vice president of the Pennsylvania Realtors Association, Dr. Goddard, Assemblyman A. Patrick Brennan, and Burgess Anthony R. Niccol, Rotary guests. (Courier-Times Photo).

## Chamber Has Ballots Out For Election

Members of the Greater Lower Bucks Chamber of Commerce will have to sit down with the ballots arriving in today's mail to ponder a list of 16 candidates for eight directorships.

Four are to be elected at large and four from districts September 11. There is a contest for each position.

Norman K. Vogel, chairman of the Chamber's nominating committee, said the ballots must be filled out and returned to the Chamber office by 4 p.m. September 11. Nominees are:

Directors at large (four to elect):

Samuel Farruggio, incumbent, of Bristol-Philadelphia Auto Express Co.; Carter Grant, Kaiser Metal Products, Inc.; Harold Hanson, Philadelphia National Bank; William C. Henwood, incumbent, Meenan Oil Co.

Karl Kaiser, Rohm and Haas Co.; Edward J. Manley, U.S. Steel Corp.; Francis J. O'Boyle, incumbent, O'Boyle's Ice Cream; James D. Wilson, incumbent, Edgely Brass Co.

District directors (one to elect each district): Levittown-Tullytown, Morton Miller, Pomeroy's; Charles Lucisano, Lucisano Brothers.

Lower Makefield-Yardley, William Mackinson, incumbent, Mackinson Kennels; Clayton Mills, Cold Spring Bleachery.

Middletown Township, William S. Erwin, incumbent, engineer and surveyor; Paul R. Sauerbry, Greenwood Dairies.

Newtown Borough-Township, Edwin Johnson, incumbent, insurance broker; Charles Roberts, attorney.

## Yardley Firemen End Blaze In Oil Burner

Yardley firemen were called to the home of Paul Comly French, 134 North Main St., this morning to put out a fire in the oil burner.

Chief John Ziaylek said the fire was confined to the oil burner and a smoke ejector was used to blow the smoke from the burner.

No injuries were reported and the fire was out in a few minutes, the chief said.

Close to 30 Yardley firemen responded.

## News Tip Call May Mean \$5.00

If you've got a keen sense for news, it could mean extra bucks for you. Whatever the news tip might be, just phone the News Tip Editor, Courier and Times, Windsor 5-1000 or STiltwell 8-3225. For the best tip of the week, the Courier and Times will pay \$5.00.

## Water To Become Big Politics Issue, Says Goddard

Water supply is becoming an increasingly important legislative and political issue, Dr. Maurice K. Goddard, state secretary of forests and waters, told the Bristol Rotary Club yesterday.

"We will double our present use of water in 25 years," Dr. Goddard said at the Rotary luncheon at the Elks Home. "In a few years the issue of water will be a lot more important in most political halls than are taxes. If you do not have water, you do not have life."

Noting Los Angeles, New York, and Baltimore send pipelines ma-

ny hundred miles for their municipal water supplies, Dr. Goddard said water must be regulated to keep an adequate supply.

In the same talk, Dr. Goddard cited the importance of land and natural resources. He deplored the dirty condition of the Delaware River and declared that "if we have the brains to make an atom bomb and hydrogen bomb we have the brains to keep that river clean."

Answering a club member's question, the state secretary said his department hopes to maintain the Delaware Canal "as it is" despite a recent controversy over a low appropriation by the Legislature.

He said "practically no progress" has been made in creating a state park at the Logan Estate, on the Delaware at Neshaminy Creek in Bensalem Township, but \$135,000 has been earmarked for a study.

## Festival

(Continued from Page One) announced they will have exhibits include the Levittown Camera Club, Artists Association, Boy Scouts, Girl Scouts, Levittown Emergency Squad and Levittown Civic Association. The Levittown Public Recreation Association is joining the groups in the sponsorship.

Interest has focused on the Miss Levittown contest with the recent preliminary judging, which narrowed the contestants from 35 to 16. Each girl competing is 13 to 19 years old. Each is from a different section of Levittown.

The Levittown Businessmen's Association is sponsoring the Miss Levittown event, and its secretary, Horace McNab, will preside as master of ceremonies.

The new Miss Levittown will be crowned by Joan Bolton, who reigned last year.

The competent and critical panel of judges will include Jane Travis, promotion director of Pomeroy's; Lee Garb, Courier Times reporter and columnist; Elmer Case, theatrical scene designer and Tom Weatherly, New York theater producer and author. The interested spectators will include Bruce Laffey, stage manager of the famed Ziegfeld Follies.

Miss Levittown will be picked on the basis of her beauty, poise and personality, after appearing first in a bathing suit, then in an evening gown.

She will win a week-end stay at El Pocono dune ranch, Thornhurst, with her parents, a Glen Haven suit from Pomeroy's, a suit case from Grant's and 15 lessons at the Slenderella studio.

Other prizes, to go to the top three contestants, include shoes from Duval's, a canned ham from the Penn Fruit market, a \$5 gift from Kresge's and a savings account, with \$5, at the Philadelphia National Bank. Yard's will present gifts to all finalists.

Equally stunning among the Levittown-A-Rae events will be a water ballet exhibit by 29 girls and a boy to the theme of "The Perfume Shop." Coached by Carla and Beverly Gauthier, they will use intricate swimming patterns to portray a variety of perfumes.

The aqua ballet starts tomorrow at 2 p.m. at Brook Park swimming pool. At 2:45 the swimming troupe will perform at Pine Park pool; at 3:30 at Magnolia Park; at 4:15, Indian Creek and at 5 o'clock, the Country Club pool.

Fancy and comic diving and swimming will be demonstrated at the pools tomorrow morning, from 10 o'clock to noon.

Another big swimming event will take place Sunday from 10 a.m. to 5 p.m. It will be a Bucks County-wide swimming contest, with individual performers performing from pools of Doylestown, Morrisville, Richboro and Lower Makefield township in the Country Club pool. Five hundred boys and girls will compete.

The closing note for the big festival will be given by the Lower Bucks County Band, at a concert from 8:30 to 10 p.m. Sunday in the bandshell.

## Ike Can Clear Orphans' Way

President Eisenhower's signature can clear the way for a Thanksgiving Day dinner in Lower Bucks County for two Korean war orphans.

If the president signs a Senate bill to enable Americans to adopt war orphans, all Sgt. and Mrs. Harry W. Simon, Trevese, have to overcome is diplomatic red tape.

The Senate bill was approved by the House of Representatives Tuesday as a substitute for similar legislation pending before House.

Bucks County Congressman Willard S. Curtin, from his Washington office, described the Senate bill as "not quite what we wanted but the only thing we could hope to get through in this session of Congress."

Sgt. Simon, stationed with the Army in Korea, and his wife Doris, who resides at 4354 Concord Drive, Trevese, have been trying over a year to bring two Korean children they have adopted to America.

They appealed to Congressman Curtin for help.

The Bucks County lawmaker got behind a bill sponsored by Rep. Francis E. Walter.

The Senate struggle over the Civil Rights bill, dimmed chances of forwarding the bill to the Senate for approval before adjournment.

"We had to rush the bill through and I'm not to sure of all its ramifications," Curtin said, "but I feel it will provide the solution."

## Temple Hit By Thieves

Thieves broke into the chapel of Temple Shalom, Edgely Ave., Bristol Township, yesterday afternoon, and took an undetermined amount of jewelry and religious articles.

Bristol Township police officers Harry Smith and Aaron Kelton, reported that the thieves forced the latch on the rear door of the chapel to enter the building.

The jewelry and religious articles were taken from a show case in the building. The glass sliding doors of the case was smashed.

The officers said the theft was discovered at 6 p.m. by William Mender, of 113 Second Ave., Bristol Township, the caretaker. The theft must have occurred between 1:15 p.m. yesterday, when the last person left, and the time Mender arrived.

# U. S. Army Field Band To Perform Monday

## AFL Official Hits Merger Of Unions

DAYTON, O. (UP)—The AFL-CIO merger was arranged "to satisfy one man's egotism and another man's lust for power," an AFL official charged Thursday.

Jack Breidenbach, business representative for the Dayton local of Hotel and Restaurant Employees, made the statement during a speech against the proposed merger of AFL and CIO unions in Ohio. "George Meany wanted to head the largest union organization in the world and Walter Reuther wanted to be the power behind the throne," he told 755 delegates to the Ohio Federation of Labor convention.

"The CIO has lied, cheated and scabbed on us."

"It organized with all the dirty, sneaky tricks some of their leaders learned from their Communist masters. Some of those leaders are still in the CIO."

Breidenbach told the delegates that the building trades unions would be "destroyed" by the proposed merger.

## Keep Lead In County

The traveling registrars signed up 110 new voters in Bristol Borough yesterday with the Democrats recording a heavy lead over the Republicans.

The break down shows 81 new Democrats to 27 Republicans and two no party voters signed up at the borough municipal building. The Democratic surplus yesterday was not enough, however, to offset the lead the Republicans have compiled in registrations since the traveling drive opened on Aug. 12.

The traveling registrars have signed up 2,287 new voters so far. The Republicans maintain a slight lead of 1,112 to 1,093 Democrats. There are 52 no party registrations and 39 Independents.

The registrars are sitting at the Sun Ray Drug Store, in the Midway Shopping Center, Newportville Road and Route 413, Levittown, today, between 2 and 9 p.m.

## Auto War

(Continued from Page One) genda platform designed to divert public criticism from himself."

Chrysler President L. L. Colbert said Reuther was not presenting any proposal to change the nature of his original proposal.

Reuther, at a press conference Thursday, said the three failed to say they could not out prices and still make profits and did not deny price reductions "would result in greater sales."

He said price setting was admittedly the "prerogative" of management but added, "so is it our prerogative as a union to determine what demands should be made for increased wages."

Reuther urged Eisenhower to call a meeting of his economic advisers and heads of the auto firms and representatives of the UAW to discuss the price-cut proposal.

## County Gives Data On Asiatic Flu And Safeguards

"Asian Flu is a mild grippelike illness. Only three definite cases have been confirmed to date in all of Pennsylvania," reports a spokesman for the Asian Flu Control Committee for Bucks County.

Dr. H. Jackson Davis, director of the County Health Department and Dr. Richard I. Darnell, Chairman of the Medical Society Advisory Committee, quoted data obtained at the Pennsylvania Health Conference:

No widespread epidemic of Asian Flu has occurred in the United States. However, 30,000 cases have occurred with confirmed outbreaks, many under intensive study, in 20 states and Hawaii.

Asian Flu, so far, is like ordinary grippelike and causes 3 or 4 days illness with a week of "washed out" feeling. The death rate in this country is almost zero. Experience elsewhere indicates the chief danger is due to complications. These are mainly in the very young, the elderly, and persons with weakening chronic illness. This danger is greater in fall and winter when

cold weather brings a greater prevalence of pneumonia producing germs.

One shot of the new Asian Flu vaccine protects against the disease. A report from Walter Reed Army Medical Center indicates tests of the new vaccine on 700 volunteers at the hospital had been "as good or better than hoped for." Authorities had hoped the vaccine would be 50 to 70 percent effective.

Vaccination gives protection in 10 to 14 days. The public will be protected most, as vaccine production rises, if we can assure, by early vaccination, continued public services during the epidemic of Asian Flu which may come in late fall or early winter.

In the event of a local outbreak, nothing is gained by closing schools or movies. Most important is isolation when ill.

The Levittown Betterment Association will hold a public meeting some time tomorrow evening, it was announced today by a spokesman for the group.

No time or place for the meeting was announced. But E. L. Williams, of 20 Dewberry Lane, Dogwood Hollow, a member of the Betterment committee, said, "It will be held someplace in Levittown, some time tomorrow evening, weather permitting. The time and place will be announced later," he added.

The group had called a public meeting for tonight at the Italian Mutual Aid Fifth Ward Sportsmen Club, Bristol. However, club officials cancelled the lease under pressure from club members and other persons.

The Betterment Association was formed in protest to Levittown's first Negro family.

Several outdoor mass meetings attracted up to 400 persons. Bucks County Sheriff ruled the meetings were illegal and ordered them disbanded.

Since, the Betterment group has been trying to find a place large enough to meet indoors. No group which has a hall has been willing to rent it to the Betterment Association.

Williams said the time and place of tomorrow's meeting will be spread by area captains. He said the meeting is for Levittown residents only, and only Levittown residents will be told of the time and place.

"We hope to have an orderly meeting and want to keep the outsiders out," Williams said.

Fairless Hills Pool also closes after Monday's swimming. Lawrence Callaghan, director of the pool, said more than 470 persons registered for this year's swimming classes.

## Pole Stops Cycle Ride

Sgt. Harry Bauer (pointing) and Patrolman Charles Haines, Bristol Township Police, look over damage to motorcycle driven by Ralph Jennings, 18, of 410 Logan St., Bristol. Jennings lost control of the cycle while riding on

Bath Road near Route 413, and it crashed into the pole shown in the photo. Jennings was admitted to Lower Bucks County Hospital with a severe scalp laceration. (Photo By James Monte).

## Confidential Hints At New Surprise Call

HOLLYWOOD (UP)—Confidential Magazine's defense counsel hinted today it would call several more "surprise" witnesses in a final effort to disprove a movie producer's claim that he was told either "to pay off" or be the subject of a spicy yarn in the so-called scandal magazine.

Defense Attorney Arthur Crowley was expected to attack testimony given earlier in the criminal libel trial by producer Paul Gregory, a prosecution witness. Gregory testified that Mrs. Marjorie Meade asked him for between \$750 and \$1,000 to keep a lurid story about him from the pages of Confidential.

Mrs. Meade with her husband, Fred, operated the magazine's Hollywood listening post. The Meades are co-defendants in the trial which resumed today following a day's recess.

Crowley launched his blast at Gregory's testimony Wednesday by calling four "surprise" witnesses. One of the witnesses testified she was with Mrs. Meade the day of the alleged "blackmail" attempt, Sept. 16, 1955.

The defense attorney said he would present "further proof" that Gregory lied.

"I'm prepared to prove without a shadow of a doubt that Mr. Gregory told a falsehood," Crowley said. "I plan to obtain a perjury indictment against him."

Crowley said Mrs. Meade took a lie detector test out-of-court and passed it with "flying colors." He added, "we asked Gregory to take the same test but he refused. His refusal makes it pretty evident that Mrs. Meade is the one who is telling the truth."

## Eckel Named

(Continued from Page One)

with U.S. Steel as a metallurgist for American Sheet and Tin in 1929. In 1936, he went to Gary Sheet Mill as a metallurgist, serving in this capacity until 1947, when he was made superintendent of galvanizing of the sheet mill. In 1949, he was appointed chief metallurgist of the plant—the capacity he maintained until his transfer to the Fairless Works.

Earlier this year, Mr. Eckel was elected vice president of the Lower Makefield Civic Association. Among the other organizations in which he retains memberships are the Trenton Country Club, Pennsylvania Parent Teachers Association, Trenton Chamber of Commerce, Bucks County Civil Defense Commission, American Iron and Steel Institute, American Society for Metals, Association of Iron and Steel Engineers and the Vespers Club of Philadelphia.

The National Safety Council predicted 420 traffic fatalities during the three-day week end, which begins at 6 p.m. today and runs through midnight Monday.

But the council said if motorists maintain their records of the past two holidays, the toll could be held to 375 or fewer, the average for a non-holiday period at this time of year.

The United Press counted 437 highway fatalities during the Labor Day holiday last year.

Among the states planning special safety measures was Pennsylvania where Gov. George M. Leader ordered state plainclothes officers in unmarked cars to supplement normal patrols. Leader said the order was designed to give Pennsylvania its safest Labor Day holiday in motoring history.

Extra police help was assigned in Texas and Ohio, and some states were expected to use National Guardsmen and aircraft to aid police in handling traffic.

## Senate Passes

(Continued from Page One) said most southerners agreed not to filibuster the bill because they knew the maneuver would fail and would only invite disaster by making "a bad bill infinitely worse."

Eleven senators—five northern Democrats and six Republicans—served notice that they will try next year to tighten the rule against filibusters.

## 'Baby' Atom Blast Tested For Safety

ATOP ANGELS' PEAK, Nev. (UP)—Scientists today unleashed a "baby" nuclear blast believed to be part of a safety test of materials to protect human eyes from flash blindness.

The device was detonated at 5:40 a.m., p.d.t. (8:40 a.m. e.d.t.). The 14th atomic explosion of the 20-shot summer "plumbbob" series at the Nevada proving grounds.

The device, called "Franklin Prime," was triggered from a plastic balloon 750 feet over the test site. The balloon was anchored to the desert floor.

## Labor Day Concert Set For L. Bucks

The U. S. Army Field Band and Soldiers Chorus comes to Levittown Monday to give a Labor Day concert at the Levittown Shopping Center at 7 p.m.

The outstanding Army musical unit, which numbers 110 musicians and 30 singers, attracted 17,000 persons in Philadelphia's Robin Hood Dell last year. With the Robin Hood Dell Orchestra, it is the only group permitted to perform in the famed Philadelphia bandshell.

The performance will be sponsored by the Levittown Kiwanis Club, the Greater Philadelphia Chamber of Commerce, and the Army.

Music critics have been lavish in their praise of the Army band and chorus.

Roeft Loveland said in the Cleveland (O.) Plain Dealer: "One of the greatest concert and military bands in the country . . . 10,000 people interested to the last note."

The Johnston (Pa.) Democrat said the band's appearance there gave them "one of the finest concerts ever heard in Johnston."

A member official said the reason for the band's excellence lies in the experience of its members, some of whom have been playing for decades.

"For example," he said "M-Sgt. Jesse D. Campbell, the leader of the Flute Section, also plays the piccolo, clarinet, saxophone, and the string bass. Before entering the Army he played with some 'big-name' bands."

"Another example of talent in this band is M-Sgt. Derold L. Simmons, leader of the clarinet section," Lowe said. Simmons won first prize as saxophone soloist at the World's Fair in Chicago and taught music in Utah high schools.

Organized in 1946, the band has traveled several hundred thousand miles through all 48 states, Canada, Mexico, and Europe.

## Fair Weather

(Continued from Page One)

ed into summer's last big fling today, the Labor Day week-end holiday, and most states planned to leave it up to the motorists themselves to get back home safely. United Press reported.

Encouraged by the relatively good traffic records posted during the Memorial Day and Fourth of July holidays, a few states planned extra police measures during the long week end.

However, police forces in all states were prepared to go into action at full strength if the highway toll mounted sharply.

420 Deaths

The National Safety Council predicted 420 traffic fatalities during the three-day week end, which begins at 6 p.m. today and runs through midnight Monday.

But the council said if motorists maintain their records of the past two holidays, the toll could be held to 375 or fewer, the average for a non-holiday period at this time of year.

The United Press counted 437 highway fatalities during the Labor Day holiday last year.

Among the states planning special safety measures was Pennsylvania where Gov. George M. Leader ordered state plainclothes officers in unmarked cars to supplement normal patrols. Leader said the order was designed to give Pennsylvania its safest Labor Day holiday in motoring history.

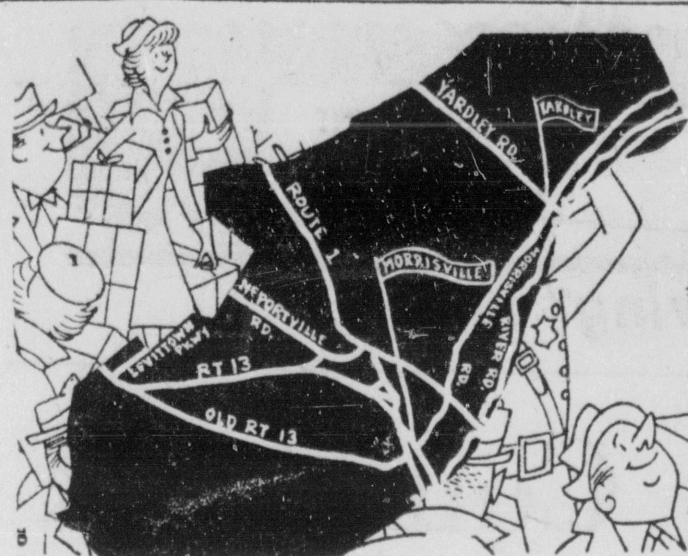

Extra police help was assigned in Texas and Ohio, and some states were expected to use National Guardsmen and aircraft to aid police in handling traffic.

## Death Notices

ELLIS — Suddenly on August 28, 1957, Dorothy B. (nee Swift), of 622 Wallace Ave., Cornwells Heights, Pa. She is survived by her husband, Jack H. 2 sons: Richard and Raymond; and 3 daughters: Sarah Ann, Victoria and Dorothy, all of Cornwells Heights. 2 brothers, Stanley W. Swift of Glen Ashton Farms and Samuel of Bristol. Relatives and friends are invited to the services Saturday at 11 a.m. from the Funeral Home of J. Maurice Tomlinson, 2207 Bristol Pike, Cornwells Heights. The Rev. Hubert DeMeester will officiate. Cremation Sunset Memorial Park. Friends may call Friday evening.

## Morrisville Demos Outregister Republicans, 3 To 1

### Party Claims 149 To 48 For GOP In Newest Total

Morrisville Democrats outregistered Republicans this week by more than three to one, according to Francis A. Troilo, borough Democratic chairman.

A new registration amounted to 149 Democrats, 48 Republicans, and nine independents.

**Fourth Year**

Troilo said the new registration was the fourth consecutive year the Democrats have pulled more registrants than the Republicans.

The Democrats gained 424 voters in this four year period while the Republicans lost 124 voters due to removal from the borough, party changes and loss of registration due to being dropped from the county for non-voting.

**'Confidence'**

"We attribute the big gain to the fact voters have confidence in the party," Troilo said.

"They see us as the majority party in council trying to do things for the borough. People like the aggressive fight being waged by Council President Nicholas Misan to get new property like the 14-story Cahan apartment and a super market in Washington St.

"Particularly pleasing to the public is the recent one mill tax cut voted by council even though police and garbage service were increased and almost all the borough streets were resurfaced.

**Tax Increase**

"On the other hand tax payers look at the all Republican school board and shudder when they see

### Ship Blamed For Sinking

The owner of an 18-foot cabin cruiser that sank Wednesday at its mooring at the Fraternal Order of Police dock, Edgely, blamed a large ore ship for creating a wake that caused the hull to break.

Richard Weise, 32, of 20 Macintosh Road, Mill Creek Falls, Levittown, said the boat hit a submerged object, apparently a rock, Wednesday morning, that broke through the hull. The tide was low when it struck, only about one and one-half feet deep, and the craft did not sink until 3 p.m., when the water rose.

Called at 3 o'clock, Mr. Weise arrived to find the boat had sunk. Helped by friends, he towed the submerged boat 50 feet to shore and raised it on a trailer. He estimated damage to the boat at \$100 to \$125, including a 35-horsepower outboard motor that was soaked.

Mr. Weise had purchased his \$1700 Beachcraft boat this year. He said the ore ships in the Delaware River are a constant hazard to boats.

"This is not the first time this has happened," he said. "Recently another boat was thrown up to shore by the wake of a big ore ship."

### More Vaccine Is Released

WASHINGTON (UP)—The U. S. Public Health Service has released 562,610 more doses of Asian flu vaccine.

The vaccine is the only known protection against the A-flu epidemic which is expected to sweep the nation this fall or winter.

The new supply brings to 1,149,610 the number of shots cleared for distribution to pharmacists, physicians and health agencies since Aug. 12.

### Collection In Morrisville

No garbage will be collected on Monday, Labor Day, in Morrisville, with a double collection on Tuesday.

Borough secretary Bob Steward announced his office will be closed Monday and will open Tuesday.

### Experts Say U.S. Has Lead In Missiles

WASHINGTON (UP)—Authoritative sources said today the United States is holding its lead over Russia in development of long-range missiles.

They said there is no cut in the overall sustained effort to perfect the missiles, capable of knocking out a city when armed with a hydrogen bomb warhead.

Defense officials made the statements as two Democratic senators charged the administration is cutting back on its missile plans for economy reasons at the same time that Russia is forging ahead in the missile field, Russia announced this week it has successfully tested an ocean-spanning rocket.

Sen. Henry M. Jackson (D-Wash.), chairman of an atomic energy subcommittee checking on missile progress, said "there has been a cutback" in the numbers planned for future production per month for the Intercontinental Ballistic Missile (ICBM) and the Intermediate Range Ballistic Missile (IRBM).

Sen. Joseph C. O'Mahoney (D-Wyo.), a member of the committee, declared that "we are rapidly becoming second best under the narrow policies of the Treasury Department, which has dominated the government and which seems to be more concerned about profits for bankers than about the adequacy of our defense."

Defense officials said, however, the United States is "going ahead at full speed" to develop the Atlas intercontinental ballistic missile.

"It is this country's big defense effort," they said.

Concerning Jackson's charge there has been a cutback in future missile production plans, these sources pointed out the United States is only testing missiles at this stage and is not in production.

"Future production rates are academic things," they said.

Jackson met for three hours Thursday with Acting Secretary of Defense Donald A. Quarles and representatives of the Army, Navy, Air Force and Central Intelligence Agency.

He said after the meeting that technical difficulties also have delayed the target date for perfecting both intermediate and long-range missiles.

### Officers Take Syrian Reins

Well informed sources in Cairo said today leftist army officers are in full control of Syria despite opposition from the two chief leaders of the Soviet-influenced Arab bloc—Presidents Gamal A. Nasser of Egypt and Shukri El Kuwaty of Syria.

These sources said Col. Abdel H. Serraj, Syria's G2, and Gen. Afif Bizri, the chief of staff, control the entire machinery of government. They have replaced governors in some key provinces.

Serraj and Bizri have assured Nasser and Kuwaty that they do not now plan to move Syria any further to the left, the sources said. For the time being at least, the two officers are expected to keep their promise.

Deputy Undersecretary of State Loy Henderson was closeted with U.S. envoys in Beirut for urgent discussions of the new threat to peace and order in the Middle East.

### Guest Speaker

The Community Baptist Church of Yardley observed men's day last week. Speakers were (from left) A. W. Skelton, the Rev. Philip Palmer, Yardley

Methodist Church, Rev. A. C. Jones, host pastor, Col. Robert C. Belleville III, speaker, and Steven Rioch.

## Stassen Heads Home Hopeful Of Headway On Disarmament

By WILLIAM SEXTON

LONDON (UP)—Harold E. Stassen headed home for the week end today, insistently optimistic about the prospects for East-West agreement on disarmament despite Russia's new rejection of the West's "package" plan.

The U.S. "disarmament secretary" left for New York by plane. He will confer with President Eisenhower and other U.S. leaders during a week-end break in the Big Five disarmament conference here.

The conference will meet at least once more, next Tuesday. It is expected to recess shortly after that so that members of its technical staff can return to New York for the United Nations General Assembly.

In an airport statement to newsmen, Stassen discounted Soviet Deputy Foreign Minister Valerian A. Zorin's slashing rejection of the West's latest disarmament proposals at Thursday's session of the conference.

"We are closer together now than we have been for the past 11 years," he said. "We have made far-reaching, practicable proposals to improve the prospects for peace. . . . We will now be looking to the Soviet government response to these new proposals."

Zorin rejected the Western plan, which had been revised as a concession to the Russians, without even bothering to study it. The Soviet embassy said later, however, that his stand was merely "preliminary."

"It is quite probable that there will be a further and more final reaction," an embassy spokesman said.

Western observers could see little sign of hope that the final Soviet reaction would be favorable. The Kremlin has been consistently hostile to the West's proposals, and its opposition appears to be increasing.

Radio Moscow, in the latest of a series of broadcasts making it clear that Russia expects the talks to fail, said today the failure was the fault of the Western nations represented at the talks.

### Twp. To Get Capitol Flag

The Makefield Civic Association will present an American Flag, which once flew over the Capitol Building in Washington, D.C., to the township.

Henry Hoffmeister, president of the group, will present the flag to township officials at ceremonies Tuesday.

The flag will be hung in the township hall and be available upon request to civic groups.

Another flag flies outside the township hall on a flag staff.

The flag was obtained through the office of the architect of the Capitol.

Congressman Willard S. Curtin (Bucks-Lehigh) was instrumental in obtaining the flag for the civic group.

Previously flags were obtained for the Cub packs 10 and 95 and Boy Scout troop 10 of the township.

### Mrs. Alben W. Barkley Denies Romance Tales

WASHINGTON (UP)—Mrs. Alben W. Barkley said today she has no romance going with Speaker Sam Rayburn, a 75-year-old bachelor.

"I enjoy his company and that's that," she said.

The 46-year-old widow of the former vice president tried to scotch gossip started when Rayburn squirmed her to several parties recently.

"Oh, for goodness sake," said Mrs. Barkley when told of the gossip. "He's a wonderful friend and he was my husband's friend."

Rayburn wasn't immediately available. But his longtime secretary Miss Alla Clary, said when asked if she knew anything about the rumors, replied:

"Goodness, no."

### Badenhausen To Give Employees Flu Shots

The Badenhausen Corp. of Cornwells Heights announced today that a program of mass inoculations against Asian flu is being carried out by the company for the benefit of their employees.

Howard S. Hoppock, industrial relations director, said nearly all of the company's approximately 1,000 employees have registered their requests for inoculations as soon as the vaccine, supplied without cost to the employees, becomes available.

### Russ Jet To Land Nearby

WASHINGTON (UP)—Two Soviet jet airliners bringing the Russian delegation to the United Nations next month are scheduled to land at McGuire Air Force Base near Trenton, N.J.

The State Department said McGuire was chosen after the New York Port Authority refused to lift its rule barring jet airliners from landing in the New York area. The Soviets had asked permission to land at New York's Idlewild Airport or some other convenient field.

The Air Force Base, Atlantic headquarters for the Military Air Transport Service, has runways of about 10,000 feet in length and is about 60 miles from New York via a new super highway. State Department press officer Lincoln White said the Soviet Embassy raised no questions when advised the planes would be directed to McGuire.

The first Soviet airliner is due about Sept. 4 and the second about 10 days later. White said a MATS pilot, navigator and radio operator will board the planes when they land at Gander, Newfoundland, for refueling.

### Boro Ready To Take On New Look

Yardley Borough is ready to take on the new look.

All missing street signs are in the process of being replaced and all worn out ones are being repaired this week.

The job is being done under the public safety committee, Karl Rempe, chairman.

**Traffic Markers**

Along with the new signs, all traffic markers in the borough are being painted.

The first part of this job was the painting of the school crossing signs on the streets.

Henry O'Brien, borough council president, said the street signs were completed first in order to have that part of the job completed in time for the opening of schools next week.

Yardley borough school opens Thursday, Sept. 5.

Mr. O'Brien said the entire job is expected to be completed within the next couple of weeks.

Workers are busy taking many of the street signs down, straightening the ones that are bent, and replacing those that are beyond repair.

### Board Set To Clean Weeds

With hay fever season having a field day, the Yardley Borough Board of Health is busy cleaning out the weeds in many borough gardens.

Grass is being cut and home owners are being urged to keep the gardens as clean as possible during this season of sneezing.

The Board of Health is requesting the job be done by the home owners themselves.

If the residents do not comply, the Board of Health takes on the job and does it for them. However, the residents are then billed by the borough for the cost of the job.

A spokesman for the board said it was a lot easier and cheaper for the residents if they did the clean-up themselves without needing the Board of Health.

### Motorcycle Policeman Held On Civil Rights

PHILADELPHIA (UP)—A motorcycle policeman was indicted Thursday by a federal grand jury on charges of violating the civil rights of a motorist whom he was accused of beating.

Patrolman Harold Brody, 41, is accused of beating and pistol whipping Dan Manning, 35, of Ridley Park, Pa., while arresting him near Rittenhouse Square.

U. S. Attorney Harold K. Wood said Manning and Philip R. Larney, 28, Ridley Park, were riding on a central city street when they made remarks about Brody's motorcycle parked away from the curb blocking traffic.

Wood said Brody chased the men, ordered Manning from the car to the doorway of a nearby shop and pistol whipped him, damaging a steel plate he had in his head as a result of an auto accident.

### Police Committee Set To Discuss Boro Pension Plan

Morrisville police committee will discuss amendments to the police pension plan at a meeting tonight at the borough hall.

John Sawyer, chairman of the police committee, will preside over the meeting at 8 o'clock.

Morrisville policemen now have to serve 25 years on the force and retire at 65 years before they are eligible to receive a pension.

Bob Steward, Morrisville borough secretary, said under present plans the pension amounts to half of the patrolmen's maximum pay at the time of retirement.

The proposal will be offered to make the pension effective after 20 years on the force, at age 60.

**Five Per Cent**

Police place five per cent of their pay into the pension fund during the time they are members of the force.

The borough makes up the difference between that and the amount paid to them as a pension upon retirement. This figure varies according to length of service and age.

Morrisville police recently had their working week cut to 40 hours, which necessitated an adjustment in the pension plan.

**Extension**

At the same meeting the committee will also discuss the Washington Street extension problem.

Paul Sullivan, owner of condemned property, is expected to attend the meeting and discuss the price of his property.

Mr. Sawyer said Sullivan has asked \$20,000 for his property.

**Yardley Babe Ruth To See Phils Game**

Members of the Babe Ruth team in Yardley, sponsored by the Yardley Building and Loan Association, will journey to Philadelphia tonight to watch the ball game between the Phillies and the Pittsburgh Pirates.

The bus will leave from Pennsbury High School at 6 p.m.

**Many Pennies**

Her proud father, George, a volunteer fireman, says few people can talk to the little girl without giving her a couple of pennies.

"She has passed up all the candy and toys and placed the money in the piggy bank," her father said.
